

## Your One-Stop-Shop for Testing, Auditing and Certification

### Play Safer with NSF

The NSF International Toy Safety Program offers integrated auditing, testing and assessment services designed to assist toy manufacturers in meeting newly mandated requirements for toy safety. By law, all manufacturers who wish to sell toys in the United States must comply with the regulations set by the Consumer Product Safety Improvement Act (CPSIA).

### Determining What You Need

The NSF Toy Safety Program will customize a program to meet your needs. Components may include:

- **Product Hazard Analysis/Risk Assessment:** Including pre-production, production and random sampling
- **Product and Materials Testing:** Mechanical/physical testing; flammability; toxicology review; electrical, chemical, heavy metal (lead), and phthalate testing
- **Supply Chain Auditing:** Inspection, Records Verification and Product Sampling
- **Factory Process Control Assessment:** Process Control Audits as mandated by the Toy Safety Certification Program (TSCP)
- **Product Certification:** Certification to TSCP requirements. NSF is an ANSI accredited TSCP testing lab.

### Product Types Covered

- Plush Toys
- Plastic and Hard Toys
- Wooden Toys
- Electric Toys
- Ride-on Toys
- Children's Stationary
- Children's Furniture
- Children's Nursery Items
- Children's Creative Art Materials
- Children's Jewelry

## Our International Toy Testing Capabilities

We can test against the following standards and directives meeting your local and global requirements:

- CPSIA 2008
- EN 71
- ASTM F963
- ISO 8124
- EN 62115
- Canadian Hazardous Products Act

## NSF Advantages

The NSF Toy Safety team is U.S. based, with locations worldwide to assist you with not only the U.S. Standards, but International Standards as well. Our team of professional engineers, chemists, and toxicologists can evaluate your products, verify compliance and get them certified to the new national standards. NSF can also provide the following:

- A single point of contact to guide you through the process
- Premium Analytical Reporting
- Competitive Pricing for single or multiple sku's
- Informational Webinars on Standards Updates

For more information about any of NSF International's Toy Safety services, please contact us at [playsafer@nsf.org](mailto:playsafer@nsf.org) or visit [www.playsafer.org](http://www.playsafer.org).

## About NSF

NSF International, an independent, not-for-profit organization, helps you by testing and certifying products and writing standards for food, water and consumer goods. Founded in 1944, NSF is committed to protecting public health and safety worldwide. NSF is widely recognized for its scientific and technical expertise in the health and environmental sciences. NSF is an ISO 17025 accredited company.
